NXT5™

The NXT is made of a revolutionary poly-blended fiber uniquely processed for a feel that is second to none, and unlike any other rope on the market. The NXT5 is an incredibly fast and smooth five strand with the weight and feel of a blended four strand. It's easy to handle, with a smaller diameter and enhanced tip with a CoreTech™ core, giving headers more range than ever before.

3/8 TRUE 30' XXS, XS, S, MS

NXT4™

The NXT is made of a revolutionary poly-blended fiber uniquely processed for a feel that is second to none. Using CoreTech technology, it is unlike any other rope on the market. The NXT4 is a four strand heel rope that helps ropers guide their tip for the Classic delivery, as the bottom strand finds its way to the ground with a wide open loop.

The Heat™

Made from a blend of custom fibers and intricate twists, and a core made with CoreTech technology, the four strand Heat sets a standard in rope feel and performance. Designed for today's aggressive roping styles, The Heat provides a loop that is packed with body. The tip remains ahead of the swing for a more controlled and confident delivery. Lightweight and built for performance, The Heat maintains its original snappy feel, run after run.

XR4®

The XR4® is the original four strand team rope with a CoreTech™ core. Its true 3/8" diameter maintains a familiar feel in your hands. The increased weight and body enable better tip feel and help you deliver more accurately. The straight nylon core helps make this rope the most forgiving rope you've ever felt. It feeds easier and faster, allowing you to shave vital microseconds off your time.

Powerline4® Lite

The Powerline4® Lite combines four strand construction with the feel and handle of the original MoneyMaker®. It consists of four strands of twisted nylon and polyester filament wound around a CoreTech™ nylon core. This increases the rope's body and widens the loop, allowing you to throw with more accuracy and control. Plus, its smooth surface permits faster feeds.

NV4™

The NV4 blends two premium nylon types for greater stability, life and balance. The fibers are then fused with high tensility poly for enhanced action and speed. A CoreTech™ core provides loop stability and tip weight. The outer diameter is smaller, making it faster and easier to control. The NV4 has a snappy, responsive feel for greater confidence and visible catches.

MoneyMaker®

The MoneyMaker® didn't become the best selling three strand in the industry by accident. It earned its reputation thanks to a heavier body, less bounce and a more consistent feel. As the first blended rope with a heart of twisted nylon and polyester filament, the MoneyMaker® created the class. Once a leader, always a leader. MoneyMaker® is in a class of its own.

Ranch Rope

Typical to Classic's four strand construction, this rope is smooth and fast. We selected nylon for its durability and long life. Soft enough for anyone to handle, but tough enough for the hardest jobs. The CoreTech™ body offers a balanced loop with a weighted tip, making it easy to use for work on the farm or ranch.

CRR4S335XS 3/8 TRUE 35' XS

Zoom™ Kid Rope

The Classic® Zoom is specially designed for young ropers or serious competitors in long-reaching dummy roping events. The Zoom is slightly smaller, with the same four strand CoreTech technology preferred by adult four strand users who need a lighter rope.

ZOOM5F30XS 5/16" FULL 30' XS

Jr MoneyMaker® Kid Rope

A junior version of the Classic MoneyMaker®. It may be smaller, but it has the same fast, smooth feel that is easy to handle.

Spitfire®

The Spitfire® is the first professional breakaway rope of its kind. Made specifically to reach and rope the neck, the Spitfire is made with a customized process using technologically advanced fibers. This allows the loop to stay open, and upon delivery close sharp, fast and tight around the intended target. The enhanced tip has a weighted feel, helping to know where the loop is and guiding it to the intended target. The Spitfire shell is extremely smooth, allowing the rope to feed fast and easy. The body keeps the loop open to create a perfect storm for an aggressive, first-swing shot out of the box necessary to win in today's sport of breakaway.

Striker™

The first four strand calf rope with a CoreTech™ core, the Striker is the most consistent calf rope available. It is constructed from special synthetic polyester that will not stretch, increasing life and consistency. The four strands give the Striker a smoother, faster feel than a polygrass, and the core stabilizes it, allowing it to rebound to its natural state.

Available in smaller sizes for junior ropers.

RIGHT	28'	8.5, 9.0, 9.5, 10.0, 10.25, 10.5, 10.75

Viper™

When five strands of low stretch poly fibers are woven around a solid braided core, you get speed and snap as quick as a viper's strike, with more consistency and less stretch than any calf rope available. With the feel of your favorite polygrass and the strength and stability that only CoreTech can give, like a viper - it's deadly accurate.

Goat Strings

Recommended by renowned clinician and goat tying coach Lynn Smith. Three ply construction for optimal hold, in four variations of stiffness for increased speed and control at all levels and age groups.

Novice (S): The softest feeling string in the line for the ultimate beginner.

Junior (MS): Designed for young, beginning goat tyers. Easier for smaller hands to handle.

Original (M): Precise blend between firmness for snappy ties and suppleness for control. Ideal string for goat tyers who are looking to add speed to their ties.

Pro (H): Offers optimum speed without sacrificing security. A truly fast string that is accurate run after run, for goat tyers who are comfortable handling a stiff string.

Boys': The perfect blend for fast ties, with a manageable length for tying goats.

Rope Bags

Designed with ropers in mind, our rope bags have room for everything you need in the practice pen or for competition. With a variety of styles and sizes and materials made to last, we have the right rope bag for everyone.

ROPE BAG FEATURES

ROPE COMPARTMENTS

Sized to fit and organize Classic and Rattler ropes perfectly, keeping them in place and protecting them from outside elements.

POCKETS

Ample storage for things you need to keep close and convenient. Enclosed and mesh pockets are great for holding keys, cell phones, gloves, rubber, etc.

STRAPS

Adjustable straps designed to be carried comfortably by shoulder or on your saddle. The Professional and Super Deluxe bags have the popular two strap option to be carried as a backpack for optimal convenience.

Professional Rope Bag

The ultimate portable rope storage system, holding up to ten ropes. Large, full length dividers keep ropes separated in larger coils. Heavy duty zippered closure, several storage compartments, and padded, adjustable shoulder straps for security and convenience.

CCPRO

Easy Now® Quick Release

Made to help prevent injuries to horses and cattle while maintaining safety to the rider when used properly. The QR2, made with Easy Now shock absorbing technology, is installed easily on the saddle horn using adjustable tension straps to perfectly position it for ease of use. It stretches after the steer is caught and stopped, absorbing shock and tension and protecting the animals. After tension is released, a lever on top is pulled and the rope is released. The QR2 can also be released under some tension. An optional guard is provided to help reduce the possibility of recoil. There is virtually zero rope change time required when a new rope is desired. Pull tested to 1,500 lbs. Replace rubber piece after 100 runs.

Working with the horse's own natural support structures, the Legacy2 cradles the fetlock and provides suspensory support without inhibiting movement. Horses are naturally designed to stop, turn, and accelerate – the Legacy System reinforces these motions and provides protection to the critical structures within the leg.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Sizes: Small, Medium, Large
Black, White also available in X-Large

Legacy2™

Nature's Design

The extensor branches of the suspensory ligament extend around the back of the ankle to support the fetlock joint during the weight-bearing phase of the stride.

Legacy2's Design

The Legacy2 Fetlock Cradle System provides maximum support and protection to the fetlock and lower portion of the leg. It mimics the design of, and therefore reinforces, the ligament it is intended to support.

MAXIMUM PROTECTION

MEETS

ULTIMATE FLEXION

Legacy²

FLEXION
by Legacy

Flexion by Legacy

Flexion technology provides individual abrasive resistant cells on the Fetlock Cradle System with impact and wear protection never before seen in the equine leg protection space. Each Flexion cell can move and stretch individually, creating a flush, secure fit when wrapping the cradle around the horse's leg. The same Legacy2 design

provides suspensory support without inhibiting movement, reinforcing the horse's natural motion while protecting the critical structures of the leg using nature's design.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Performance Skid

- Preferred by Andrea Fappani and Todd Bergen
- Specifically designed for reining horses, with great protection for any discipline
- Hermann Oak harness leather is lined with foam for comfort, durability and resiliency in extreme conditions
- Neolite skid cup and stainless steel buckles for durability
- Size: Standard

PSB200B

Leather Splint

- Preferred by AQHA World Champions Jay Wadhams and JD Yates
- Maximum protection to the splint and sesamoid
- Protective shield guards against crossfire and over reach injuries
- Chap leather body is lightweight, durable and comfortable
- Sizes: Small, Medium, Large

LSB100B

Leather Skid

- Preferred by PRCA World Champion Joe Beaver
- No-turn rolls ensure proper fit and prevent shifting
- Chap and latigo leather lined with foam for comfort
- Neolite skid cup and stainless steel buckles for durability
- Size: Standard

LSB200N

Pro Reiner Skid

- Protects the performance horse from injuries caused by sliding stop maneuvers
- Extensively tested for durability, comfort and fit
- Provides complete fetlock protection and no-rub fit
- Outer shell is made from a full grain American cowhide specially treated to remain soft and pliable
- Skid cup shaped and positioned to make contact with the ground in the center of the cup and proven to withstand the coarsest ground conditions
- Two easy on/off double closures secure the boot close to the horse's fetlock
- Size: Standard

CRPOBBK

For extreme competition, Zone Saddle Pads provide extreme protection against pressure and impact. A specialized insert is filled with Zoombang™, an advanced polymer designed to reduce impact and pressure in a unique way. Zoombang has been used extensively to protect bull riders, NASCAR drivers, and professional football players with great success. This technology is available for the equine

athlete as well. Zoombang is a semisolid material at rest. This allows it to conform comfortably to the horse and disperse saddle pressure evenly. Using cutting edge innovations in science, Zoombang reacts to impact by instantly becoming rigid, dissipating pressure and protecting the horse's back. To learn more about this leading-edge innovation in protective equipment, visit zoombang.com.

THE PAD THAT REACTS

THE ZONE™ SERIES pad is the only saddle pad that features a polymer protective material that changes its properties on impact to offer your horse the most comfortable fit while ensuring his protection, no matter how hard you ride.

Zoombang™ Features

- Absorbs 80% of impact forces
- Soft, conformal protection allows body movement and support
- Polymer is soft at rest, adjusting to the contour of horse and saddle
- Reacts instantly upon impact, absorbing energy and protecting the horse
- Returns to its soft resting state after impact
- Unprecedented lightweight protection trusted by hundreds of professional athletes
- Science-based and significantly tested
- Engineered to manage, dissipate, and transfer energy
- Specially formulated for equine athletes to help reduce injury and stress
- Non-toxic and will not wear out, dry out, freeze, or melt

BIOFIT[®] CORRECTION PAD

BioFit[®] Pads feature a strategically placed “buildup” that helps fill in the missing muscle mass often seen behind the shoulder. Decreased muscle behind the scapula can cause the saddle to run “downhill” and collapse on the spine at the withers. The BioFit[®] Pad is designed to effectively level the saddle, providing comfort and improving the horse’s performance. BioFit[®] pads provide saddle fit solutions for narrow-shouldered or high-withered horses, or horses that have muscle atrophy due to ill-fitting saddles. Dense orthopedic grade felt absorbs shock and disperses pressure, while memory foam fills the void behind the shoulder with comfortable correction. A cutout over the withers offers greater clearance and spine relief. All BioFit[®] Pads are contoured for a close fit, offering excellent protection while solving saddle fit issues.

BioFit[®] Correction

- Strategic buildup placement fills in the void area, offering extra support
- Contoured design molds to conform to your horse's back for added comfort and improved saddle fit
- Premium grade felt bottom with shock absorbing wool felt center
- 7/8” total pad thickness

Cinch Fitting Tips

The cinch is the lifeline that holds your saddle in place, which in turn keeps you in a stable position during competition. Because there is so much riding on your cinch, we wanted to give you some helpful tips that will benefit both you and your horse.

- 1 Use a cinch that is designed with your horse's comfort in mind.
- 2 Choose a cinch by measuring the distance from one heart girth or "sweet spot" under the belly to the opposite one.

- 3 When the cinch is tight, the dees should lay flat and clean against the horse's heart girth or "sweet spot". If it rides above or below the sweet spot, it can cause soreness and discomfort.
- 4 To allow flexibility or "give" as your horse moves, use a cinch/latigo combination. Leather is a natural fiber that has "give". Leather latigos expand slightly and move with the horse as you ride.

- 5 Use a cinch with stainless steel hardware, which is long lasting and will not rust, corrode, or bind up. Classic Equine® cinches are made with stainless steel hardware to ensure you're getting the highest quality product possible.

SensorFlex® Cinch

- Soft and flexible with a high quality fleece interior and padded nylon exterior
- Inner felt insert provides plush feel for a better ride
- Contoured design follows the natural shape of the horse's heart girth for a better fit
- Recommended for use only with leather latigos to allow the horse to expand naturally
- Stainless steel hardware with one roller buckle for easier cinching
- Sizes: 26", 28", 30", 32", 34", 36"

FCINCH18R ROPER
FCINCH18S STRAIGHT

31-Strand 100% Mohair Cinch

- Made with 31 strands of 100% mohair fiber that is naturally soft, breathable, and extra wide to help prevent soreness
- Very strong yet expands with movement, providing comfort for the horse and security for the rider
- Stainless steel hardware with one roller buckle for easier cinching
- Sizes: 26" (straight only), 28", 30", 32", 34", 36"

10K Cross Trainer™ Hooded Blanket

- 1200 denier breathable ripstop outer shell is waterproof and extremely durable, with a nylon lining that polishes the coat
- Ideal for colder climates
- Designed to protect your horse and withstand winter elements with 300 grams of fiberfill insulation
- Shaped to naturally contour to the horse's body
- Hood stays flush on the neck with adjustable hook-and-loop straps
- Shoulder gussets allow for freedom of movement
- Enhanced tail flap and greater length (top to bottom) maximizes protection
- Adjustable nylon leg straps are replaceable, to greatly extend the life of the blanket
- Crossover adjustable belly straps
- Stainless steel snaps and adjustable straps keep the blanket in place with movement
- Reflective Knight Vision™ safety strip maximizes visibility in low light
- Sizes: X-Small (69"-71"), Small (72"-74"), Medium (75"-77"), Large (78"-80"), X-Large (81"-83")

Restoration Equine Mask

REST ASSURED

The **Restoration Equine Mask** ensures your horse gets a good night's sleep even with the lights on.

Whether your horse is at a show, a vet clinic or a public stable, the lights are on. Have you ever tried to sleep with the lights on? Like us, our horses need the absence of light to produce melatonin, allowing for optimal rest and recovery.

Quality sleep is a big focus for today's athlete. It maximizes performance and is linked to increased levels of melatonin. Melatonin rises at night. Our equine athletes are asked to perform at competitions but often are left under lights at night, especially at an event.

The REM mask uses blue light blocking technology to promote the natural production of melatonin for a more restful night of sleep while being exposed to artificial light.

Developed and tested by veterinarians. Patent pending.

Restoration Equine Mask

Standard

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Eases travel anxiety
- Sizes: Small, Medium, Large, X-Large

REM

Left Eye Patch

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Sizes: Small, Medium, Large, X-Large

REMLP

Right Eye Patch

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Sizes: Small, Medium, Large, X-Large

MAGNTX

MAGNETIC EQUINE THERAPY

MagNTX™ therapeutic products are constructed with 1-1/2” bi-polar magnets. MagNTX magnets possess both north and south pole fields that run in horizontal planes. The north pole helps to expand the blood vessels and increase blood flow, while the south pole promotes the removal of toxins away from surrounding tissues. Using bi-polar magnets forces ions to rebound back and forth between the opposite magnetic fields, breaking up calcifications and carrying away toxins and other foreign debris, aiding the body’s ability to heal naturally.

Science has proven beyond doubt that all living cells are electrical in nature. Each cell has a positive electrical charge at its nucleus and a negative charge on its outer membrane. This positive/negative polarization is what makes each cell function properly. When tissues are damaged, blood flow can be restricted, which limits the horse’s oxygen and nutrient supply to the damaged area. Stimulating tissues and joints with bi-polar magnetic fields helps increase blood flow to a specific area and promotes a fast healing environment and natural pain killer. Magnetic therapy compliments deep tissue penetration therapies by

prolonging benefits in a non-invasive, cost and time efficient manner. MagNTX products fit and stay in place with reinforced elastic hook-and-loop closures. Each MagNTX product uses a soft coated micromesh material that allows adequate airflow and is comfortable to the horse. Each bi-polar magnet is strategically placed for optimal effectiveness.

- We recommend using MagNTX products for a minimum of 30 minutes and no more than 12 hours at one time; ideal treatment periods will vary on a case by case basis
- Ensure the horse is adequately cooled down after a workout before applying magnets
- Do not use any oil-based or abrasive liniments under MagNTX products, as these substances can cause damage
- MagNTX magnets can be used in conjunction with preventative and treatment regimens
- Always consult your veterinarian when using magnet regimens

MagNTX

MagNTX products aid in injury prevention and speed recovery by generating blood flow to the affected area. Soft mesh ensures proper position.

Hock Wrap

- Recommended treatment for varying hock issues
- Helps relieve pain in arthritic hocks
- Aids in prevention of injury when used on healthy hocks

A. EMHW

Knee Wrap

- Aids in the breakup of calcifications
- Helps to draw out fluid and promote healing
- Standard size

B. EMKW

Mask

- Releases endorphins, which can aid in calming nervous horses
- Helps relieve some horses of anxiety related issues such as cribbing or weaving
- Standard size

C. EMMASK

Sheet

- Great as a pre-warmup and pre-competition tool
- Generates blood flow throughout the entire body, promoting relaxation
- Magnets are strategically aligned across the muscle meridian lines of the whole body
- Helps to promote overall healing
- Sizes: X-Small (68-70), Small (72-74), Medium (76-78), Large (80-82)

D. EMSHEET

Bell Boot

- Reduces pain of the navicular area or coffin bone
- Increases blood flow to the hoof and aids in a wide range of foot issues
- Standard size

E. EMBB

Tendon Wrap

- Used for a number of lower leg ailments
- Speeds healing in bowed tendons, splint injuries and ankle strains
- Standard size

F. EMTW

Relief Pad

- Use for human lumbar, shoulder, or neck therapy
- Size: 9” x 5-1/4”

G. EMRP

Standing Wrap Bandage

- Tough, stain resistant bandage material for securing quilted standing wraps
- 5-1/2" wide and 12' long for easy, complete coverage
- Easy to apply and remove, with large hook-and-loop fasteners for secure fit
- Minimal stretch helps to apply even pressure
- Set of 4

A. CESWB154

Quilted Standing Wrap

- Provides compression to help prevent inflammation
- Comfortable, durable quilting is padded to provide even pressure
- Bound edges keep out dirt and debris
- Black color looks cleaner and shows fewer stains than lighter wraps
- Set of 4 (2 front, 2 hind)

B. CEQSW154

Stud Breeding Boots

- Made of durable, textured neoprene exclusively for stallions
- Internal padding protects the inside of the knee from wear and tear while jumping the dummy
- Top two straps made longer for extended fit around the joint with three shorter straps extending to the bottom
- Standard size

C. BREEDINGBOOTS

Ice Boots

- Makes icing a horse's legs for injury or recovery a fast, easy process
- Removable encapsulated gel ice pack hook-and-loops in and out of the boot for easy on/off application
- Neoprene shell acts as an insulator to keep the ice pack cold
- Set of 2
- Sizes: Small, Medium, Large, X-Large

D. CEIB Ice Boots
CEIBI Replacement Inserts

Shipping Boots

- Protect horses' legs during travel
- Hard outer shell over the hoof with padded interior
- Front boots extend from above the knee to the hoof and secure with hook-and-loop straps, allowing for mobility around the knee and external protection
- Hind boots extend from above the hock to the hoof and secure with hook-and-loop straps, with two large crossover straps at the top

• Set of 4

• Sizes: Medium, Large

E. CESB204

Quick Wraps

- Apply muds, sweats or liniments to your horse's legs quicker and easier
- Neoprene shell is secured with hook-and-loop straps
- Removable terry towel lining is soft and easy to clean
- Compatible with your own muds and liniments
- Set of 2
- Sizes: Small, Medium, Large, X-Large

F. CEQW Quick Wraps
CEQWI Replacement Inserts

Ceramic Wraps

- Ceramic lining reflects the horse's own body heat to promote thermal infrared therapy
- Aids in blood circulation and reduces inflammation
- Neoprene shell is secured with hook-and-loop straps
- Use in the trailer or the stall
- Set of 2
- Sizes: Small, Medium, Large, X-Large

CECWI Replacement Inserts

Improving the quality of water is a simple way to help promote the health and performance of your horses. Classic Equine® has earned a spot as the leader in providing the finest protection and performance products for your horses. Ritchie® has been providing innovative watering solutions for nearly a century. It makes sense that we teamed up to create a line of

automatic water systems specifically designed for horses. Classic Equine® by Ritchie® founts provide clean, fresh, temperate water for any situation. Whether you need water in a stall for one horse, two in the back yard, or 40 head in the pasture, Classic Equine® provides trouble-free, worry-free access to the best water available.

StallFount

Individual

- Automatic water fountain for stalls
- Supplies fresh, clean, temperate water
- Easy to drain and clean
- Corner mounted to save space
- Stainless steel cover and hardware
- Quick refill function - no waiting for water
- 10 year warranty
- 120V thermostat-activated heater on heated version
- Electrical components on heated version UL tested and approved

A. FOUNTSTALLHEAT HEATED
FOUNTSTALLNOHEAT UNHEATED

Shroud (StallFount)

- Durable, fully insulated casing designed to protect the water line below your StallFount from freezing and animal abuse
- Eight anchor bolts for secure installation
- Removable panel for easy access
- Available in 20" height for smaller animals or 30" for horses over 15 hands
- Full 10 year warranty

B. FOUNTSHROUD20 20"
FOUNTSHROUD30 30"

UltraFount

Stainless Steel - Insulated - Automatic

- Premier, energy efficient heating system
- Provides worry free fresh water year round, regardless of climate
- Heavy duty construction and stainless steel drinking area
- Virtually maintenance free float with quick refill function
- Large access panel for installation
- Saves water by cutting waste
- 10 year warranty

Two Drink

Waters up to 40 head of livestock

C. FOUNTULTRA

Single Drink

Waters up to 20 head of livestock

D. FOUNTULTRA

AutoFount

Insulated - Automatic

- Waters up to 40 head of livestock
- Heavy duty construction with hinge cover for easy access
- Fully insulated chamber
- Worry free float system with quick refill function
- Saves water by cutting waste
- Easy cleaning
- Heating accessories available
- 10 year warranty

Two Drink

Waters up to 40 head of livestock

A. FOUNTAUTO

Single Drink

Waters up to 20 head of livestock

B. FOUNTAUTOSINGLE

EZ Fount

Automatic

- Replaces the "tank and float" for up to 20 head
- Heavy duty construction
- Multiple mounting options for pen or pasture
- For portable or permanent use
- Easy installation and cleaning
- Connects to a basic 200 psi garden or washing machine hose
- Supplies fresh, clean, temperate water
- 10 year warranty

C. FOUNTEZ

Immersion Heater

- For use in all poly units
- Teflon® coated for added durability
- Built-in thermostat for worry free operation and protection only when you need it
- One year warranty

D. FOUNTIHEATER250

Self Regulating Heat Cable

- Protects valve and supply lines from freezing, helping keep your unit trouble free
- For use with all poly units
- Built-in thermostat reduces heat as temperature increases, saving electricity costs

E. FOUNTHTCABLE

Thermal Tubes

- Protect your riser through the frost zone
- 2" of superior insulation with 8" inside diameter, 12" outside diameter, and an R-factor of 14
- Recommended water line installation is 1' below the frost line

| FOUNTHERMALTE2 | 2' EXTENSION |
| FOUNTHERMALT4 | 4' |

Sherry Cervi
SIGNATURE
COLLECTION

Sherry Cervi's Signature Collection bits have an excellent feel for quick pickup and release. Mouthpieces are stainless steel and available in many options and degrees of control.

"I see a lot of barrel racers who reach for the most severe bit in the trailer at the slightest resistance rather than following a natural progression. You should always start mild and work your way up only if needed. I recommend starting a colt or charging horse with mild bits to teach them to yield to pressure while building confidence and establishing correct body position. That's why I start with my smooth D-ring snaffle before anything else, and then move up to the Diamond Draw series."

Sherry Cervi

Diamond Short Shank II

This is a bit for starting my barrel training, or on horses that have a sensitive mouth that do not need much bit. It is identical to the original Diamond Short Shank, but with a limited gag for horses that do not need the extra collection. It is nice and soft, offering complete rate and body lift for turns. 6" shank.

Goostree Barrel Bits

Carol Goostree is a true barrel racing legend and has been a trusted name in bits for many years. She is a former World Champion and has provided the western industry with the highest quality bits, original in design and ridden by some of the best barrel racers in the world. We are proud to bring you some of the most successful designs in the line.

CG Bit

The “CG” bit is one of the first bits Carol designed. She developed this bit especially for her champion mount “Dobre” in the late seventies. The chain snaffle mouthpiece and short gag action make this bit soft and forgiving in a horse’s mouth. Horses tend to feel comfortable in this bit and show a lot of response without overreacting. It helps add control in the turns, and support and correct an overly bendy horse. The CG’s 5-1/2” weighted shanks add more feel and help encourage a proper headset.

- GTCGBIT**
A. GTCGBIT31 CHAIN SNAFFLE

Simplicity Bit

Simplicity bits are designed for light-mouthed horses that need more flex with added control. These bits enforce natural flexion and rate going into a turn and are great transitioning tools for young horses that are ready to add more speed as they advance. Simplicity bits are trusted by some of the most successful barrel racers in the world. 5” shank.

- GTSBIT**
B. GTSBIT12 TWISTED WIRE SNAFFLE
C. GTSBIT13 DR BRISTOL
D. GTSBIT30 CHAIN
E. GTSBIT31 CHAIN SNAFFLE

Simplicity II Bit

Simplicity II bits encourage natural flexion with their balanced gag action. Designed for light-mouthed horses that need more flex and added control in the turn without restriction. 5” shank.

- GTSIIBIT**
F. GTSIIBIT12 TWISTED WIRE SNAFFLE
G. GTSIIBIT13 DR BRISTOL
H. GTSIIBIT30 CHAIN
I. GTSIIBIT31 CHAIN SNAFFLE

Double Gag Bit

The Double Gag is for a light-mouthed horse that needs more direction and lift in competition runs as speed increases. The slight gag action gives the horse a chance to prepare for full contact before the rider fully engages the bit. It is comfortable, safe and provides a tremendous amount of feel for the rider without being too harsh. 8” shank.

GTDG

- A. GTDGSS13 SHORT SHANK DR BRISTOL
- B. GTDGSS30 SHORT SHANK CHAIN
- C. GTDGLS13 LONG SHANK DR BRISTOL
- D. GTDGLS30 LONG SHANK CHAIN

Delight Bit

The Delight has been around for decades and continues to be a best seller. It is a light bit, but offers quicker contact and a little more control when needed. The Delight is one of the original bits in Carol's line, and is perfect for tuning an older finished horse or for seasoned colts going around the barrels. 4-3/4” shank.

GTDBIT

- E. GTDBIT12 TWISTED WIRE SNAFFLE
- F. GTDBIT13 DR BRISTOL
- G. GTDBIT30 CHAIN
- H. GTDBIT31 CHAIN SNAFFLE

Pickup Bit

The Pickup Bit is available in both long (8-3/4”) and short (7-1/4”) shank versions and is Carol's next step up in control. Works well for obtaining shoulder control on seasoned horses that need help keeping their shoulder lifted going into the turns. Offers increased shoulder control and rate when needed. Horses that are harder mouthed usually respond well to the Pickup bit when lighter gag bits are not enough.

GTP

- I. GTPSS12 SHORT SHANK TWISTED WIRE SNAFFLE
- J. GTPSS13 SHORT SHANK DR BRISTOL
- K. GTPLS12 LONG SHANK TWISTED WIRE SNAFFLE
- L. GTPLS13 LONG SHANK DR BRISTOL

Goostree Quick Draw

Versatility and adaptability make the Quick Draw an excellent addition to any collection. The twisted wire dogbone mouthpiece is a basic tool for many disciplines. Gag length is variable by adjusting the headstall length, from 0” - 3”. Two rein rings allow for either 5-1/2” or 6-3/4” shank length. The Quick Draw is excellent for collection at speed and teaching vertical flexion at many different levels.

GTQD

- M. GTQD13 DR BRISTOL

Goostree Hackamore

The Goostree Hackamore is an extremely versatile piece of equipment. It is designed with a 8-3/4” shank and chain nosepiece covered in a supersoft polyurethane coating, making it very flexible. Because it is so flexible, riders don't hit that “dead spot” commonly felt in other hackamores. It offers plenty of “whoa” when needed and can be placed higher on a horse's nose or lower, depending on the horse's level of sensitivity.

GTHACK

- N. GTHACK

Loomis Bits

Joyce Loomis-Kerne, a former WPRA & AQHA Champion Barrel Racer and World Renowned Clinician, designed the original Loomis Gag Bit. Its one-of-a-kind design has been trusted by some of the most prominent horse trainers for years.

Loomis Gag Bit

Loomis Gag Bits are trusted by professional horse trainers to start colts or tune finished horses. They work great for transitioning from the ring snaffle, providing additional lift to control the horse's nose, poll, rib cage and shoulders. Excellent tool for teaching collection and lateral maneuvers. Durable cord cheek pieces on double stitched natural leather headstall. Smooth Snaffle is stainless steel. Twisted Wire Snaffle has a sweet iron mouthpiece with stainless steel cheek. Ready to use - all you need are reins.

Bozo Sidepull

The Bozo Sidepull is a replica of the headgear World Champion Barrel Racer Kristie Peterson used on Bozo. It allows your horse to be comfortable enough to really run in, yet gives you enough control to rate and regulate the run. It helps correct a horse that is over-bending, and is more for the finished horse than for training.

TIP: Kristie recommends that you ride your horse in the Bozo Sidepull a few times before running in it.

BOZOSP

- E. BOZOSP ORIGINAL (6-3/4" SHANK)
- F. BOZOSPS SHORT SHANK (6" SHANK)

Shoulder Holder Bit

This is a great bit for elevating a horse's shoulder going into a turn. It aids the rider in holding a horse's shoulder steady, maintaining a more optimal body position around a barrel. Very fair and forgiving, the mouthpiece is set forward on the shank, which helps increase lift and lateral movement. This bit helps to maintain forward motion on horses that anticipate a turn. The Shoulder Holder is also a great tool for retraining man-made habits in aged horses. 7-1/4" shank.

SHBIT

- G. SHBIT74 LOW PORT
- H. SHBIT75 HIGH PORT

Les Vogt is a 15-time world champion horseman who has been honored in the NRCHA hall of fame three times. He is known as “The Trainer’s Trainer,” sharing his knowledge by giving clinics worldwide.

Turbo Collection

Satin-finished tempered steel shanks and pinchless sweet iron mouthpieces. Calculated shanks and the pre-signal gag design keeps horses responsive.

5-1/2” Shank Snaffle

Shank Level 1: 5-1/2”
Mouthpiece Level 1: Snaffle
Gag Length: 7/8”

Snaffle mouthpiece combined with easy leverage and limited gag encourages lateral flexion and suppleness. Great for fundamental training in younger horses.

A. LVBB7

6-1/2” Shank O Ring Snaffle

Shank Level 2: 6-1/2”
Mouthpiece Level 1: Ring toggle snaffle
Gag Length: 1-1/8”

Smooth ring toggle mouthpiece with medium leverage and gag encourages rate, lateral bend, and poll control. Provides lift for intermediate horses.

B. LVBB8

Turbo Collection

7-3/4” Shank Ported

Shank Level 2: 7-3/4”
Mouthpiece Level 2: Loose port snaffle, designed for pressure points on the outer mouth bar areas
Gag Length: 1-1/2”

The tool that creates smooth lateral neck and hip control without creating fear in intermediate and advanced horses. Limited gag slide action with higher leverage encourages rate, respect, and collection.

C. LVBB9

6-1/2” Shank Snaffle

Shank Level 2: 6-1/2”
Mouthpiece Level 1: Snaffle
Gag Length: Unlimited

Lower leverage helps to make your horse more user friendly. Specially designed for soft-mouthed horses that need front end elevation. Great tool for collection education and maintenance.

D. LVBB10

7-1/2” Shank Dogbone Snaffle

Shank Level 3: 7-1/2”
Mouthpiece Level 3: 1/4” Square with copper roller covered dogbone
Gag Length: Unlimited

This bit gives you respect without fear, with the unlimited gag slide action and medium-high lift leverage. Allows speed control, rate and lateral body control.

E. LVBB11

8-1/2” Shank Ported

Shank Level 4: 8-3/4”
Mouthpiece Level 4: 1/4” square bars with loose open port center
Gag Length: Unlimited

The unlimited gag slide action with high lift leverage encourages hindquarter engagement and weight distribution with hip and shoulder control. Compete to win at a high level on a broke horse.

F. LVBB12

“Over the past 50 years, I have learned how to calculate effective leverage ratios and combine them with creative mouthpieces to maximize each horse’s performance.”
-Les Vogt

Roper Collection

The Les Vogt **Roper Collection** is designed to increase performance in the arena, on the ranch, or on the trail with precision design combinations.

Dogbone Snaffle with Swivel Cheeks

Shank: 5-3/4”; Leverage Position: 1. Low leverage, easy mouthpiece is great for green or fragile horses.

A. LVRB1

3 Piece

Shank: 6-3/4”; Leverage Position: 1.5. Popular, versatile graduation bit with more leverage, feel, and respect on green horses.

B. LVRB8

Short Shank Correction with Swivel Cheeks

Shank: 6-3/4”; Leverage Position: 2. Allows for rate and communication. Shifts weight to the hindquarters and eliminates performance dead spots.

C. LVRB5

Swivel Port with Hinged Cheeks

Shank: 7-1/2”; Leverage Position: 2-1/2. Swivel port mouthpiece combined with high leverage allows lift and more control when shifting weight to the hindquarters. Flexible and slow reacting; good for strong, well-seasoned horses.

D. LVRB3

Square Port with Rollers

Shank: 6-3/4”; Leverage Position: 2-1/2. Contoured chain links find pressure points that achieve lateral flexion with rate and body control under speed.

E. LVRB6

Chain

Shank: 8”; Leverage Position: 3. Chain mouthpiece with high leverage. Flexible and slow reacting, good for stronger, well-seasoned horses.

F. LVRB2

Cowhorse Collection

The Les Vogt **Cowhorse Collection** includes NRCHA approved bits with sweet iron mouth with copper inlay. Satin brushed iron shanks with beautiful hand engraved German silver overlay.

1-3/4” Slope Port

Shank: 8”; Leverage Position: 1. Higher leverage drops the neck and slows curb action. Slope port mouthpiece gives tongue clearance and contact with the exterior of the bars. Great for green horses.

G. LVCH4

2” Flat Port Roller

Shank: 7-1/4”; Leverage Position: 2. Versatile mouthpiece with leverage. Communicates with respect, not too hot or too cold. Perfect for the nice horse that deserves to be bridled properly.

H. LVCH2

1-1/2” Port with Rollers

Shank: 8”; Leverage Position: 2. Higher leverage combined with a soft mouthpiece for more collection. Works well to eliminate high performance busy signals in and out of the arena and is a popular crossover bit.

I. LVCH6

2-1/2” San Joaquin Port with Tongue Relief

Shank: 8”; Leverage Position: 2-1/2. 4:1 leverage ratio drops the neck and delivers perfect head position for precision performance. Great all around bit for most horses.

J. LVCH5

2-3/4” Keyhole with Double Roller

Shank: 8”; Leverage Position: 3. Provides ample feel with palate and tongue pressure for respect. Easy to use and great for tougher horses.

K. LVCH3

11 Time NFR Qualifier and NFR Champion Rickey Green is well known for his accomplishments as a leading clinician and horse trainer in the team roping industry. The Rickey Green bit collection includes a variety of proven designs for training and competition alike.

RICKEY GREEN BITS

BY CLASSIC EQUINE®

The Rickey Green bit collection was designed for team ropers to train, practice and compete. It features a 7" loose-cheek shank and an assortment of mouthpieces for collection and lateral flexion, giving ropers the control and balance needed for proper horse position and consistent loop delivery.

Rickey recommended using a firm leather curb strap or flat chain with these bits to allow the horse to feel and work off the bit rather than react to the feel and pressure of a biting curb.

Long Shank Snaffle

Contoured shape makes the mouthpiece comfortable, and the 3" purchase provides leverage to lift the horse's head and shoulder, keeping the hindquarters collected.

A. RGBIT218

Chain

Pinchless mouthpiece shaped to lay flat across the mouth and tongue, attaches to the shank and softly cues when pressure is applied. Allows for collection, breaking at the poll and lifting of the shoulder in preparation to stop.

B. RGBIT230

Sharp Setter

Encourages rate quickly under speed. Port reaches the top of the mouth and signals flexion at the poll, bringing the horse into your hand. Preferred on aggressive horses to maintain control.

C. RGBIT240

Setter with Roller

Unique mouthpiece rolls back when engaged, slowing contact and allowing time for collection and response to pressure. Develops the horse's proper headset and teaches him to carry the bit correctly. Under speed, helps rate smoothly and build consistency.

D. RGBIT241

Joe Beaver BITS

BY CLASSIC EQUINE®

7-1/2" Shank Low Port

Allows the horse to push into the roper's hands. Length of the shank helps maximize the function of the jerk line. Its port style is shaped to be forgiving to a sensitive horse. Doesn't lock on and hold a horse's mouth, so it is a good bit for kids or novice ropers.

E. JBBIT2

7-1/2" Shank High Port

Offers more control on a horse that drops in the front and helps the roper keep his horse's weight shifted to the hind end. Offers more control on horses with a hard mouth. Increased "get back" action on horses that don't want to get back or yield to the jerk line on their own.

F. JBBIT1

8" Shank High Port

For the seasoned, veteran calf horse. Provides more control in the box and in the corner. 8" shanks provide maximum jerk line action. Works well for ropers with light hands or helps compensate for size and strength of the roper.

G. JBBIT3

Joe Beaver is an 8 Time World Champion Calf Roper with 22 NFR qualifications in Tie-Down Roping and Team Roping. Joe has dedicated much of his life to growing the sport, coaching the pros and teaching young ropers the fundamentals of Calf Roping. Joe conducts clinics, seminars and roping schools worldwide, in addition to horse training and public speaking appearances.

Classic Equine® is proud to offer his line of time tested Calf Roping bits. They are for everyone from novice and youth competitors to experienced professionals. His bits will help make up ground in horsemanship so the roper can focus on the calf. Ropers can depend on Joe Beaver bits for any style of calf horse, at varying stages of competition.

In developing BitLogic, we worked with dozens of the industry's top horse trainers. While all trainers have their own “secret” specialty bits, the basic styles of mouthpieces and cheeks used by most respected horsemen are surprisingly similar.

BitLogic is a complete biting system. Included are essential bits that are common to most every professional horseman's line of equipment in all western disciplines.

Snaffle O Ring

O Ring Snaffles are the most commonly used pieces of equipment by trainers of all disciplines, for everything from starting colts to softening older performance horses. Use them to introduce a horse to a bit for the first time, teach a horse to follow his nose, lateral flexion exercises and drills, establish proper headset or soften older horses. These O Rings have a weighted feel for greater sensation during the pickup and release of pressure.

Smooth Snaffle

The softer of the two O Ring styles. 3/8” diameter, 5” wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

A.TBBIT40R20 STAINLESS STEEL

Twisted Wire Snaffle

3/8” x 5” stainless steel twisted wire mouthpiece. Creates greater sensitivity in the mouth. Great for training and softening older horses' mouths.

B.TBBIT40R25 STAINLESS STEEL

Snaffle D Ring

The D Ring Snaffle has a nice weight, balance and feel. Its slightly heavier design not only makes it durable, but it takes a deliberate action to cue the horse. When released, the bit returns quickly to a resting state, providing release of pressure and adding consistency to your hands.

Smooth Snaffle

The softer of the two D ring styles. 5” wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

C.TBBIT3DR20 BROWNED IRON
D.TBBITDR20 STAINLESS STEEL

Twisted Wire Snaffle

5” stainless steel twisted wire mouthpiece creates greater sensitivity in the mouth. Great for training and softening older horses’ mouths.

E.TBBIT3DR25 BROWNED IRON

Square Snaffle

5” stainless steel square mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

F.TBBIT3DR29 BROWNED IRON

Small Smooth Snaffle

5” stainless steel small smooth mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

G.TBBIT3DR35 BROWNED IRON

Ring Gag

Ring gag with an inlaid copper twisted wire snaffle mouthpiece. The gag action encourages the horse to respond before the bit is completely engaged. Gags are commonly used in training and competing in all western events.

5-1/2"

This gag action bit helps elevate the horse's shoulders.

A. SSPSBIT5RG25SS STAINLESS STEEL

6-1/2"

Good bit for reinforcing collection and shoulder elevation. Longer shanks give it more leverage for increased control.

B. SSPSBIT65RG25SS STAINLESS STEEL

6" Cheek

The 6" cheek has a 2-1/2" purchase and 3-1/2" shank. This ratio (difference in the length of the purchase and shank) and the swept back shank design make this a mild cheek. Contact with the horse's mouth comes slowly as soft pressure to all points of contact. The main point of contact is the corners of the mouth, familiar from the O Ring. This bit may also be used with a training fork or martingale to encourage collection and poll control. The mouthpiece is inlaid with copper to stimulate salivation. It is 5-1/8" wide, 3/8" in diameter, and curved for soft, evenly distributed pressure to the bars, tongue, and corners of the mouth.

Snaffle

Softest of all shank bit styles. Transition bit for colts moving up from the O Ring. Soft pressure is applied through the curb.

C. SSPSBIT6SS20 STAINLESS STEEL

D. TBBIT36SS20 BROWNED IRON

Short Correction

A slight step up from the snaffle. Applies pressure to the chin, bars and corners of the mouth. Gives added pressure to the tongue for more feel.

E. SSPSBIT6SS61 STAINLESS STEEL

F. TBBIT36SS61 BROWNED IRON

7-1/2" Cheek

This cheek style can be used for training, pleasure riding or competition. It has a 2-1/2" purchase with a 5" shank. The shank is swept back like the 6" style, but to a lesser degree, offering more leverage. When properly adjusted it is still a mild cheek, but has plenty of control at increased speeds.

Snaffle

This is one of the most popular bits with all horsemen. It applies more pressure to the tongue than the dogbone, giving it a quicker response. Offers lateral pull and collection.

G. SSPSBIT7SS20 STAINLESS STEEL

H. TBBIT37SS20 BROWNED IRON

Chain

Stainless steel cheek with an inlaid copper chain mouthpiece. Good for reiterating bend and flex. Mild and pinchless sweet iron is comfortable, and applies even pressure to the corners of the mouth and tongue.

I. SSPSBIT7SS30 STAINLESS STEEL

Floating Spade

Stainless steel cheek with copper inlaid floating spade mouthpiece that wraps over the tongue with pressure. This is a great bit to introduce a horse to palate pressure as you transition to ported bits.

J. SSPSBIT7SS24 STAINLESS STEEL

Dogbone

This versatile mouthpiece wraps the tongue when pressure is applied. Pressure is also realized on the chin from the curb strap to the bars and corners of the mouth. This bit works well on well broke young horses or light-mouthed older horses.

K. SSPSBIT7SS29 STAINLESS STEEL

L. TBBIT37SS29 BROWNED IRON

7-1/2" Cheek

Ported Chain

Stainless steel cheek with a copper inlaid ported chain mouthpiece. This comfortable and pinchless mouthpiece allows for tongue relief while providing flex and bend. It also encourages the horse to break at the poll. Ideal for finished, well broke horses.

A. SSPSBIT7SS32 STAINLESS STEEL

Low Port Barrel

This highly universal bit works well for anything from training to pleasure or competition. The low port provides tongue relief as slight pressure is applied to the bars of the mouth and the palate. Each side works independently from the port for increased lateral flexion.

B. TBBIT37SS60 BROWNED IRON

Ported Twisted Wire

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

C. TBBIT37SS34 BROWNED IRON

Correction

Extremely popular with performance riders and trainers. Taller port creates more palate pressure. Mouthpiece applies increased pressure to the sides of the tongue. Designed for finished, well broke horses of all disciplines.

D. SSPSBIT7SS10 STAINLESS STEEL

E. TBBIT37SS10 BROWNED IRON

8" Cavalry Cheek

Designed for more control in finished performance horses. The angled shank causes immediate response. The purchase/shank alignment ratio increases leverage, creating pressure to contact points. Use for competition and schooling, not daily training.

1" x 1-3/4" Correction

Applies increased pressure to all parts of the mouth and sides of the tongue. Used to school horses that need reminded of stopping and collection.

F. SSPSBIT8CS10 STAINLESS STEEL

G. TBBIT38CS10 BROWNED IRON

Square Hinge Port

Sides of the mouthpiece move independently for lateral control and flexion for lifting the shoulder, achieving collection, and promoting a level headset.

H. TBBIT38CS70 BROWNED IRON

Ported Twisted Wire

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

I. TBBIT38CS34 BROWNED IRON

Ported

Inlaid copper mouthpiece with a higher port increases degree of contact with the palate, offering tongue relief with 1-1/2" width. For collection with a finished horse.

J. SSPSBIT8CS43 STAINLESS STEEL

Hackamore

9" cheek with solid noseband and adjustable chain. Pinch free, designed for more control.

K. HACKSSPS STAINLESS STEEL

Flower Series 1-1/4" Band

Greyed iron with beautiful silver and copper floral detail. 2" shank and 1-1/4" band with chap guard. Made for a working hand with a 20-point cowboy rowel.

Size: Large

D. SPURF19114

Flower Series 1" Band

Greyed iron with beautiful silver and copper floral detail. 2" shank, 1" band with chap guard. Small flower design has a six-point rowel and large flower design has a roper rowel.

Size: Large

**SMALL FLOWER
E. SPURF191A**

**LARGE FLOWER
F. SPURF191B**

Cutter

Greyed iron with classic cutter style. 2" shank that turns down to avoid accidental contact with the horse. 1" band is weighted to stay down on the heel.

Size: Large

A. SPURCT17

Reiner

Greyed iron with raised reining style shank for easy contact and discreet cues. 1" band is weighted to stay down on the heel.

Size: Large

B. SPURRN17

Roper

Greyed iron with 1" classic roper style drop shank to avoid accidental contact with the horse. 1" band is weighted to stay down on the heel.

Size: Large

C. SPURRP17

Flower Series Womens

Greyed iron with elegant copper and silver floral design. 2" shank, 1" band with chap guard and six-point rowel. Sized for women's boots.

Size: Medium

G. SPURF191Y

Flower Series 1/2" Band

Greyed iron with a silver and gold floral design and a 1/2" band with chap guard. 1-1/4" shank has a roper rowel.

Size: Large

H. SPURF1912

Performance Series

The weight of the stainless steel construction allows the spur to stay down on your boot heel. The 1" band has a 2" shank with chap guard, and the 5/8" band has a 1" shank.

Size: Large

1" BAND CHAP GUARD
E. SPUR1MSSPS

Sizes: Medium, Large

5/8" BAND
F. SPUR58SSPS

Cowboy Series

Weighted to remain in place on your boot heel. Great all around performance spur designed with classic cowboy style. 2" shank.

Colt Rein

Rein your colt without the excess bulk of a long rein. Yacht rope has 3/4" diameter and shorter length for colts. Harness leather slobber straps.

I. LRN

Phil Haugen Training

Over 30 years, Phil Haugen has developed a method of horsemanship on the foundation of common sense, trust and understanding. A respected trainer and clinician, Phil has developed these tools to help accomplish the training goals of all disciplines.

Martingale

Classic German Martingale with tightly braided rope applies pressure to the bars and corners of the mouth, and provides instant release as the horse gives. This tool is useful to maintain that "softness" in the bridle with added speed and pressure during the transition to higher level training in its desired discipline. Available with split rein or roping reins.

J. PHMARTINGALESR SPLIT REIN
PHMARTINGALERR ROPING REIN

1/2" Braided Rein

Quick pickup and release helps the horse to understand your cues and improves reaction to your hands. The low stretch between the hands and bit keeps the horse from leaning on the bridle and provides immediate release for softness. Use with slobber straps to facilitate a softer feel.

Flank Cinches

All Martin Saddlery flank cinches have biothane keepers for longevity. The contoured ends will not interfere with spurring. They are made of heavy saddle skirting with a latigo liner and sewn together with heavy nylon thread. Then they are hand rubbed and the edges are dyed. Roller buckles are secured with copper rivets.

CFMSE-22 STANDARD WITH EARS

Lightweight Fly Sheet

Breathable mesh can be used even on warmer days when insects are active. Unique design has a contoured shoulder and wide belly flap for added comfort and protection of sensitive areas, while keeping the sheet securely in place. Grey.

Sizes: 57-59, 66-68, 70-72, 74-76, 77-79, 80-82, 83-85, 94-96

FSL

Econo Fly Sheet

Great protection for all. Supersoft easy care polyester mesh blocks UV rays, offering cool protection from sun and insects. Fleece lining at the withers and adjustable straps make it comfortable enough for continuous wear, yet economical enough for the entire stable.

Sizes: 74-76, 77-79, 80-82

FSE

Crusader Leg Guards

Crusader Leg Guards reduce stress and frustration caused by insects and burrs. Soft yet durable construction fits securely and comfortably. Set of two.

Grey Sizes: Mini/Foal, Weanling/Small Pony, Yearling/Large Pony, Arab/Small Horse, Horse, Warmblood, Draft

Blue, Pink and Orange Sizes: Arab/Small Horse, Horse, Warmblood

Colors are made to match charity Crusader Fly Masks
LG3

Econo Fly Sheet with Neck Guard

Supersoft easy care polyester mesh blocks UV rays, offering protection from sun and insects. Shoulder darts, lining around the front of the shoulder and front gussets provide a comfortable fit and add freedom of movement. An attached neck guard with adjustable hook-and-loop straps has a tie string that attaches to the fly mask. Adjustable rear closure and removable leg straps keep the sheet in place. Grey.

Sizes: 74-76, 77-79, 80-82

FSNG

Fly Sheet Neck Guard

Soft and breathable, this cool, easy care micromesh neck guard attaches easily to the Crusader Fly Mask and Fly Sheet. The Neck Guard also keeps your horse's mane straight, saving you grooming time and getting you back in the saddle faster. Machine washable. Grey.

Sizes: 66-72, 74-80, 82-84

FS-NG

Fly Sheet Belly Guard

Added protection from chest to flank, the Fly Sheet Belly Guard gives relief from flies where your horse needs it most. Soft straps are comfortable, adjustable and secure. Use with the Crusader Fly Sheet in the pasture or stable. Black.

Sizes: 66-72, 74-80, 82-84

FS-BG

Cashel® Saddles

Cashel® saddles are made with your security and comfort in mind. We offer versatility in styles great for training, colt starting, pleasure riding, competition, mounted shooting and ranch work.

Cashel® Trail and Trail Blazer saddles are built on the Axis True Fit tree, with a unique fiberglass seat and kiln-dried South Dakota white pine. The bars distribute weight evenly and allow a full range of motion. Double stirrup leather cutouts and a smooth surface with flared edges create a smooth, balanced ride.

Rancher

The Rancher's lower, flatter seat is designed for all day comfort. Larger swells and free swinging fenders keep the rider in a secure position on any horse, over any terrain. This saddle is tough enough for ranch work.

Tree Sizes: 14", 15", 16"
Gullet Size: Standard (6-1/2")

SA-CKRA

NEW

Cashel® Trail Saddle

The Cashel® Trail has horse and rider's comfort and security in mind. Stirrup fenders are positioned to give the rider a comfortable leg angle for stability. A double padded seat makes a softer ride for long trail rides, and the redesigned larger swells and cantle offer more security. Tie rings are woven into each string set, along with an additional crupper ring. The saddle is 7/8 rigged, and with the AXIS™ tree provides full, even contact to your horse. Weight: 24-1/2 lbs. Chocolate Hermann Oak leather. Made in the USA.

Tree Sizes: 15", 16", 17"
Gullet Sizes: Standard (6-1/2"), Wide (7")

SA-CT SMOOTHOUT
SA-CT-R ROUGHOUT

Trail Blazer Saddle

The Trail Blazer is built on the AXIS™ tree with Hermann Oak leather for a good fit and durability. It is 7/8 rigged, with plenty of strings and rings and an additional crupper ring for versatility. The Trail Blazer is great for exercising, endurance, colt starting, reining and western pleasure. Its double padded seat and secure pocket, along with the large swells and cantle, provide balance and comfort for a long day in the saddle with less fatigue. If you're looking for a cost effective saddle to cover a variety of disciplines, the Trail Blazer will go the distance. Weight: 27-1/2 lbs. Chocolate Hermann Oak leather. Made in the USA.

Tree Sizes: 15", 16", 17"
Gullet Size: Standard (6-1/2")

SA-TB

Soft Saddle G2

The Soft Saddle G2, with its quality construction and innovative design, is great for the trail and for everyday exercising. It provides a balanced ride that is comfortable for horse and rider. Features include a wither handle strap, convenient back dee rings, and removable stirrups. The compact design is flexible yet secure. Weighs just six lbs. for effortless saddling.

Sizes: Medium, Large, X-Large

SSG2

Soft Saddle Pad

The perfect companion to the Soft Saddle G2, designed to fit perfectly without extra bulk. Canvas top and fleece bottom for durability and comfort. One size.

SS-PAD

Designed for use under the Soft Saddle G2 to help absorb moisture and keep the fleece clean and dry. The split-back opening contours to your horse's back and enables airflow. Black.

Sizes: Medium, Large

FL-G2

Soft Saddle Breastcollar

Specifically made for the Soft Saddle G2, with nylon and 100% sheep wool construction. Designed to attach to the dee rings of the saddle similar to an endurance breastcollar. Wither strap included. Nickel plated hardware.

SSG2-BC

Cowboy Kid Saddles

For the serious competitor, Cashel® is proud to offer a serious youth saddle designed with the young rider in mind. All Cowboy Kid saddles are built to use, with trees and rigging that stand up to hard work. A secure seat pocket, roughout leather, and kid friendly proportions help the young rider maintain correct position and balance. Available in four styles, you are sure to find a saddle that is the perfect fit for your cowboy kid. These saddles can fit a wide range of riders by adjusting stirrups and adding a seat shrinker. They are tailored to those who wear kids' western jeans from size 4 to 14.

Barrel Racer

Narrow ground seat helps the rider balance for tight turns, with a tall, narrow horn for security and leverage. Prominent swells keep the rider in position as the horse drops, and the higher cantle helps keep the rider from falling behind as the horse accelerates.

Seat Sizes: 12", 13"
Gullet Size: 5"

SA-CKBR

Roper

Tailored to help young ropers as they learn the basics, with a horn that is easy to reach and a seat designed to keep them in position. Blocked fenders help keep balance while delivering the loop.

Seat Sizes: 12", 13"
Gullet Size: 5-1/2"

SA-CKRO

Rancher

The Rancher's lower, flatter seat is designed for all day comfort. Larger swells and free swinging fenders keep the rider in a secure position on any horse, over any terrain. Just like the kids who ride them, this saddle is tough enough for ranch work.

Seat Sizes: 10", 12", 13"
Gullet Size: 5"

SA-CKRA

Wade

The Wade saddle offers closer contact to the horse with a traditional cowboy design. Its slightly larger horn cap secures the rope, and the high cantle keeps the rider in position.

Seat Sizes: 12", 13"
Gullet Size: 5-1/2"

SA-CKWA

Breathe Easy® Elastic Billet

Navajo Liner

This Navajo cotton blend blanket offers a traditional design at an affordable price. Use as an underlayer to protect expensive saddle pads, or as a top blanket in the arena for its classic style. Helps as layer padding for horses that need a little more support under the saddle. Turn it inside out and enjoy it for years to come.

Cushion Pads

Engineered to provide outstanding back protection and shock absorbency, Cashel® Cushion pads are made with a unique closed cell foam originally designed for the aerospace industry for weight distribution and shock reduction. They will not collapse or absorb moisture and bacteria the way open cell foam pads do, nor will they retain heat or add unnecessary weight the way liquid gel pads do. Extremely lightweight and conforming to your horse’s back, Cashel® Cushions will help relieve pressure points and are tapered at the edge to eliminate uncomfortable ridges, allowing closer contact with your horse. They go label side up

with your saddle directly on top. Recommended for use over a navajo, felt liner, or quilted pad. Clean with water and store on a smooth surface.

Correction Cushion Pads

Made with the same unique foam as the original Cushion pads, Correction Cushion Pads are specially designed to aid in providing optimal comfort and protection as well as to help adjust the fit of your saddle against the horse. They provide an easy way to help horses with muscle atrophy behind the shoulder or other conformational obstacles through the balanced distribution of saddle pressure.

Flat Cushion Pad

Even thickness with tapered edges to help relieve pressure points and allow close contact with your horse.

Saddle Bags

Our saddle bags fit your saddle, your horse, and your life. They are made with quality materials and have an ergonomic fit. Strategically placed pockets and anchors allow for confident one handed operation. Reinforced grommets and heavy duty fasteners ensure safety and dependability. With Cashel® Saddle Bags, you can take the best with you no matter where the trail leads.

Lunch Bag / Bottle Holder

This combination allows you to pack light and still have what you need. It attaches securely and comfortably to the pommel and dee rings, and holds a drink and a sandwich. The mesh bag helps keep trash off the trail. Bottle not included.

Size: 6-1/2" w x 7" h x 2" d
SB-HB-LBBH

Medium Horn

Pockets are large enough to hold two one-liter bottles and are insulated to keep them cold for hours. Insulated pockets are easy to clean. Side pocket keeps your camera or phone handy. Bottle not included.

Size: 8" w x 8" h x 4-1/2" d
SB-HB-M-II

Small Horn

Features a large horn opening with pommel straps, adjustable tie downs and heavy duty buckles for security. Large pockets are padded for comfort, with camera/phone holder and plenty of mesh pockets to keep the trail clean.

Size: 7" w x 8" h x 3-1/2" d
SB-HB-S-II

Water Bottle Holder

One handed operation keeps you in control. The structured, insulated compartment combines with an easy hook-and-loop closure and secure tie-down to make operation a breeze. Adjustable pommel strap fits most any saddle. Bottle not included.

SB-BH

BLACK

BROWN

LEOPARD

DISTRESSED
LEATHER

Bottle / GPS Holder

The same easy one handed operation as the Water Bottle Holder, with an added pocket for your phone, GPS, or other items. Pocket detaches and reattaches easily with a safety cord for extra security in case it is dropped. Clear pocket allows you to check your location without removing the device. Bottle not included.

SB-BHG

BLACK

BROWN

Small Pommel Bag

Snaps to the pommel of the saddle for easy access to the things you need while riding. The front zipper pocket fits most cell phones, and the main compartment is great for keys, cash, tissues, or even shotgun shells for mounted shooters.

Deluxe

The Deluxe Saddle Bag has a place for everything. One main pocket is washable and insulated, with a removable liner. It has plenty of compartments to keep gear sorted, with extra pockets for your phone or camera. Mesh pockets on the sides help responsible riders keep the trail clean.

Size: 12" w x 10" h x 5" d

SB-DX-II

Standard

Large padded pouch features interior pockets to keep things organized, while a removable insulated pocket is big enough to carry all your gear. Easy to operate double closures provide extra security.

Size: 11" w x 10" h x 4" d

SB-STD-II

Deluxe Cantele Bag

Great for a soft saddle, endurance saddle, or tied to the dee rings of a western saddle, this bag is made to withstand the elements. It has a soft interior lining and curves around the saddle for comfort for the horse and convenience for the rider. Holds two bottles of water with hook-and-loop straps for easy access, and a zipper pocket big enough to fit a light jacket or vest. The small pocket on the back is perfect for sunglasses. Includes two strings and four dee rings for attachment. Bottles not included.

Size: 20" w x 7-1/2" h x 5-1/2" d

SB-CNTD

Medium Rear

Convenient low profile. Features two large pockets with removable insulated liners, two smaller padded pockets, and two pouches for your camera, phone or GPS. Hook-and-loop closures offer easy one handed operation, and strong buckles provide extra security.

Size: 9-1/2" w x 9" h x 4" d

SB-RB-M

Snap-On Lunch Bag

Strong double anchors and hook-and-loop closure make sure your sandwich and energy bar don't end up on the trail. This design also holds the bag securely forward of your leg. Mesh side pocket helps responsible riders keep the trail clean. Reinforced for strength, with a washable insulated liner that keeps food cold for hours.

Size: 6-1/2" w x 7" h x 1-1/2" d
